## Online development discussion for 2.1

Posted by joshua - 2007/12/21 16:50

---

Welcome everyone - this is where we'll be discussing the issues that arise and the progress in development for Pachyderm version 2.1. Currently we have a small team (hopefully to grow) working on version 2.1.0, and we'll be using this space to discuss our progress and share our issues. Please feel free to join is as you will.

Joshua
